

### To make your pirate puppets

1. Print out this worksheet onto A4 card. If you only have paper that could work too, you may need to reinforce the paper with card (check your recycling for cardboard packaging).
2. Colour in your design.
3. Cut around the edge of your design. Also cut out the two circles for your fingers.
4. Put one finger through each hole and then your pirate puppets are ready! Will you make a theatre for a show? Or will you go on an adventure?
